

Downloading and Installing Lexia Reading® v8 onto an RM CC4 Network

PLEASE MAKE SURE YOU FOLLOW ALL INSTRUCTIONS AND ENTER ALL DATA REQUESTED

Downloading the updated RM MSI

1. Go to <http://www.lexialearning.com/support/lexiareading/license.html> and click **Agree** for the License Agreement.
2. On the Downloads page, scroll to **MSI Packages** at the bottom of the screen.
3. Click the link for **RM CC3 and CC4 MSI Package**.
4. When you run the MSI it will automatically extract the files to:
D:\RMNetwork\RMMange\Packages\Applications

Installing the updated RM MSI

1. After the MSI is extracted, navigate to:
D:\RMNetwork\RMMange\Packages\Applications\Lexia Reading UK v8\LLSCommon
2. Open the 'login.ini' file in Notepad or other plain-text editor. You can then enter your customer code and proxy details as below (**x marks the spots where you will need to enter config data specific to your site**):

```
[customer]
Id=xxxx-xxxx-xxxx-xxxx
location=

[local_settings]
password=0
screen_size=fullscreen
updates=0

[admin]
--boolean 1=show debug fields, 0 = do not show debug fields

status=0
[debug]
enable_debug_logging=0
hook=1
status=0
```

(login.ini continued)

```
[server]
info=http://student.mylexia.com
```

```
[rpc]
rpc_timeout=180
```

```
[proxy]
address=xxx.xxx.xxx.xxx
pass=
password=
port=xxxx
prompt=0
user=
```

Note: If you have Lexia Reading v6 or v7 installed you will need to de-allocate it first as they install to the same location and the two versions do not coexist.

Adding the package to CC4

1. Open RMMC.
2. On the file menu choose 'Import package.'
3. Check the radio button next to CC3 Package.
4. Browse to the location where you saved the MSI, choose the 'Lexia Reading UK v8.ini' and import.
5. The RMMC will think about it for a while (it's quite a big package). It will then ask you if you want to update any current versions on the network. Choose **Yes**.
6. The Lexia Reading UK v8 package is now available in your package list to allocate
7. You will also be able to create a program set and add the shortcut included

Note: Please test the allocation on one machine first to see whether the package deploys successfully and works as it should. If there are issues please contact Lexia support using the details below.

Lexia UK Support can be contacted between 8:30am and 12:30pm Monday to Friday
