

Snapshots to SUCCESS

Lexia Inspires

I love that Lexia personally meets children at their level, targets their needs from phonics to comprehension and challenges them, but continually gives reinforcements and praise. Students want to achieve. They constantly want to share what they are learning and what they are accomplishing.

My students celebrate each other's successes. They set goals for themselves and learn to advocate for themselves when they are stuck on a task. I love the community it instills within the classroom.
