

## 2021–2022 School Year Results for Grade 6–12 Students in California

### Three Years' Progress Made in One Year

When tested, the best in all of us shines. In the 2021–2022 school year, California schools found Lexia® shined and excelled across all platforms. A total of **58% of grade 6–12 students who consistently used Lexia® PowerUp Literacy® covered three grade levels in a single year**—whether learning happened at home, in person, or somewhere in between.

97,676 students

1,231 schools

Grades 6–12

August 2021–May 2022

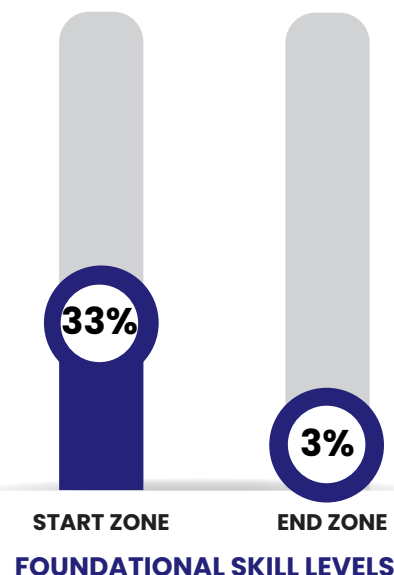

20 average weeks of use

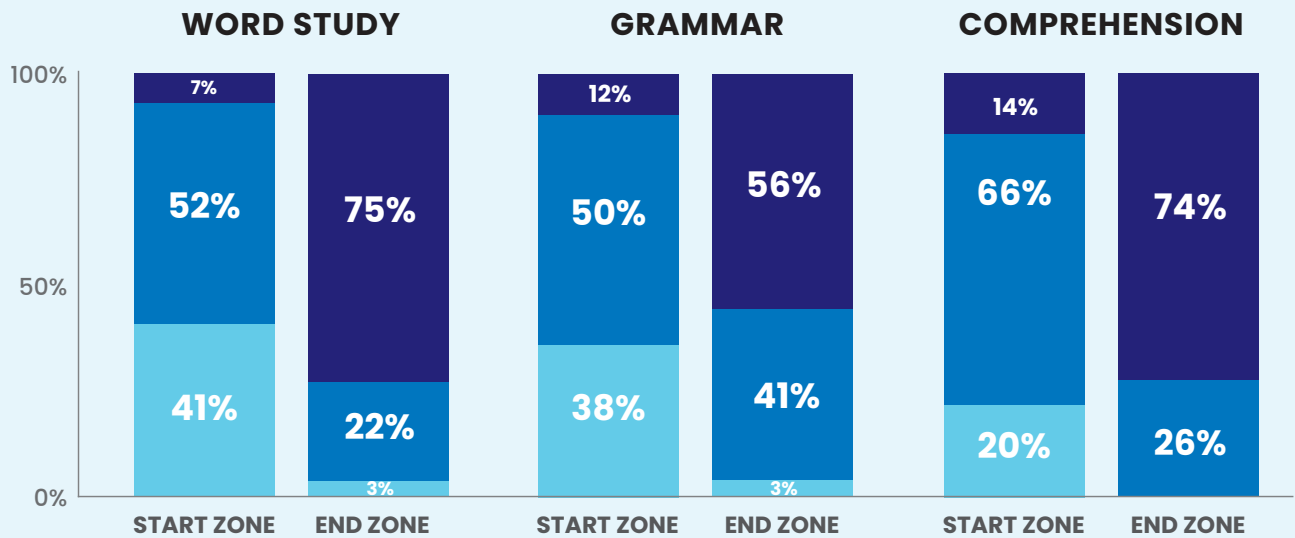

35 average weekly strand minutes

### Students in Foundational Skill Level Dropped From 33% to 3%

Nearly 97,676 California students in middle and high school used PowerUp in varying degrees, ranging from low to high usage. Students worked in three “zones”: Foundational, Intermediate, and Advanced literacy skills. Students who used PowerUp with fidelity monumentally improved. Only 3% of high-usage students remained in the Foundational skill zone by year end, dropping from 33% at the beginning of the year.

- Advanced (skills in grades 6–8+)
- Intermediate (skills in grades 3–5)
- Foundational (skills in grades K–2)

**48%** of students who started in the Intermediate and Foundational skill zones (below grade level) and met their weekly suggested usage were working on Advanced skills in all strands across the school year (grew from 1% to 48%).

**POWERUP  
IS UP TO 5x**

as effective as the average middle school reading intervention program.
