

Level Up Your TELPAS Scores with Lexia English

“

I have the data right there in front of me. I don't have to wait for a year to get the TELPAS data to see how they're doing.

— Texas educator

Boost your TELPAS scores in as little as 60 minutes per week! Lexia® English Language Development® boosts TELPAS scores with only three online and two teacher-led conversations per week.

Lexia English provides authentic practice for every TELPAS item type: open-ended responses, sequencing, comparing and contrasting, and videos with multiple responses.

Accelerate proficiency across the four language domains through content-based academic conversations in science, math, social studies, and ELAR.

Lexia English provides various opportunities for students to apply correct grammar and syntax as they write across the content areas.

Lexia's AI-powered speech recognition technology offers learners immediate, corrective feedback. 72% of the student program is dedicated to speaking.

Open-Ended Responses

TELPAS example

Students are asked a question after a picture is displayed. They must describe at least three things in the picture and give as much detail as possible.

How does Lexia English support this?

Students are given pictures and are guided through how to use correct verb tense and sentence structure to answer. By going through these grammar sequences, students are then able to produce answers to open-ended questions.
