CHALLENGE

Intervention and ELL programs needed to be more user-friendly for both students and educators.

SOLUTION

Lexia English Language Development™ + Lexia® Core5® Reading

In 2022, school leaders rolled out Lexia® programs for their English Language Learners (ELLs), and were blown away by the results.

Reclassification Results

In Arizona, only **10%–11%** of ELL students reclassify statewide each year. At Valley View:

20%

of students
reclassified in 2023

18%

of students
reclassified in 2024²

Before Lexia, our ELA scores were stagnant. Now, we hit our growth numbers every year. Our growth is outstanding.”

— Larry LaPrise, Principal

The students were excited about using Lexia. The teachers liked it because it was low prep. It was ready. It was at their level. It was engaging.

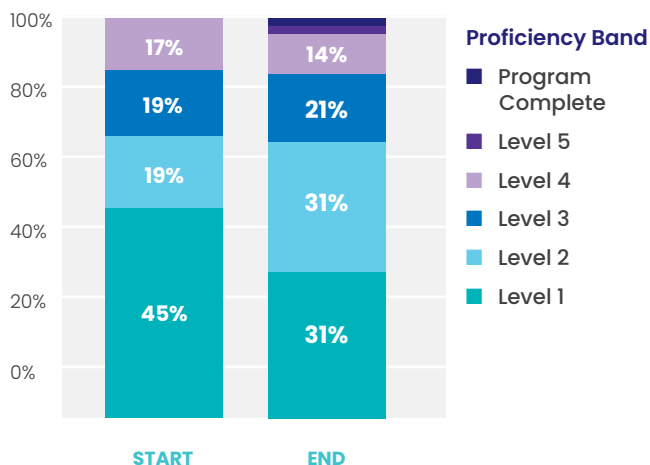

“We’re seeing some amazing growth with Lexia.”

— Jessica Zimmerman, Instructional Coach

7 Reasons School Leaders Love Lexia

1. Lexia meets students where they are, in both literacy and language
2. Easy and intuitive real-time progress reporting
3. Seamless switching between Core5 and Lexia English data in myLexia®
4. Language standards-aligned skill progression
5. Ready-to-use resources
6. Student engagement and ownership of learning
7. Results

Proficiency Band Progress in Lexia English

Better Together

19% of ELL students moved up **at least one proficiency band** of in-program material in Lexia English.³

87% of Valley View K–5 students using Core5 advanced **at least one grade level** of material.³
