Lexia CORE5 READING

Your Year-Round Roadmap to Literacy Success

How **Lexia® Core5® Reading** supports school administrators from summer planning through end-of-year outcomes

SUMMER | June–August
Strategic Planning & Implementation Prep

What we can help you accomplish:
- Setting literacy goals for the coming year
- Analyzing prior-year data and identifying gaps
- Planning professional development
- Establishing culture and expectations for the year ahead

How Core5 supports you:
- Data from the previous year that informs planning and goal-setting
- Resources for systematic implementation
- Professional development materials to train staff
- Clear program expectations and usage guidelines

FALL | September–November
Strong Start & Early Identification

What we can help you accomplish:
- Ensuring consistent program implementation across classrooms
- Identifying students who need intervention early
- Building accountability systems
- Monitoring adoption and usage

How Core5 supports you:
- An easy-to-use platform for students and educators
- Initial assessment identifies students' starting levels and areas in need of support
- Usage data shows implementation across your schools
- Students receive personalized, adaptive instruction from day one

WINTER | December–February
Assessment Planning

What we can help you accomplish:
- Monitoring midyear progress without overtesting
- Adjusting intervention strategies based on data
- Maintaining instructional momentum
- Preparing students for spring state assessments through continuous progress monitoring

How Core5 supports you:
- Ongoing skill checks are embedded in instruction to track progress
- Assessment Without Testing® provides educators with actionable, real-time student progress data without interrupting the flow of instruction to administer an assessment
- The adaptive learning model includes embedded assessment, which provides teachers with personalized action plans and resources for differentiated instruction tailored to each student's needs
- Data identifies which students are on track and which need additional support

SPRING | March–May
Demonstrating Outcomes & Impact

What we can help you accomplish:
- Validating year-end growth and proficiency gains
- Demonstrating ROI to stakeholders
- Celebrating wins with staff and the community
- Planning for summer and the next school year
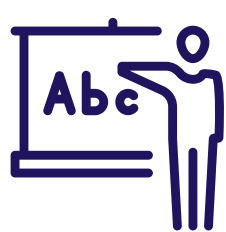

How Core5 supports you:
- Clear data showing growth from the beginning to the end of the year
- Evidence-based outcomes for board and stakeholder reports
- Continuous progress monitoring correlates with state assessment readiness: students who meet Core5 benchmarks show measurable gains in reading proficiency on standardized tests
- Data to inform summer programming and next year's planning

What Support Looks Like Year-Round

FOR STUDENTS
Consistent, personalized instruction that adapts to their needs throughout the year

FOR TEACHERS
Blended learning resources, including Lexia Lessons® and Lexia Skill Builders®, that save time and target instruction
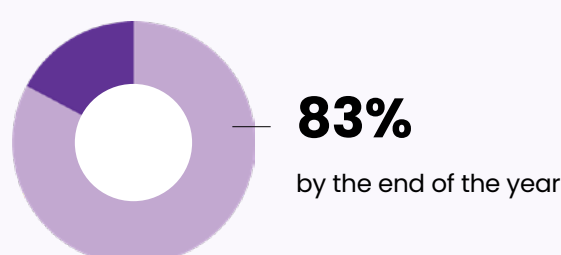

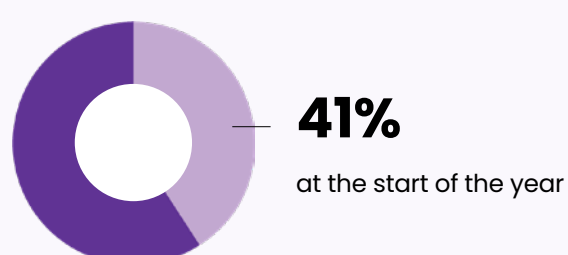

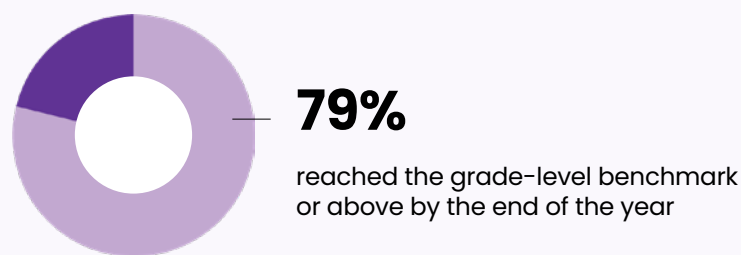

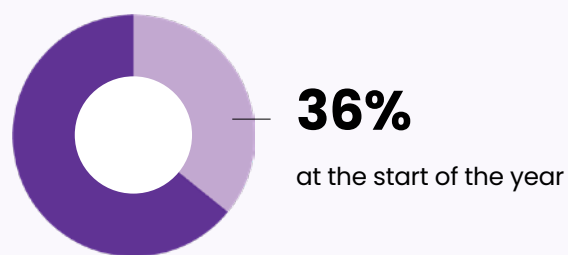

FOR ADMINISTRATORS
Visibility into implementation and outcomes across all classrooms to drive accountability
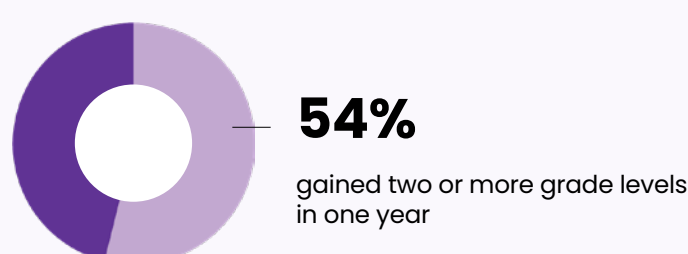

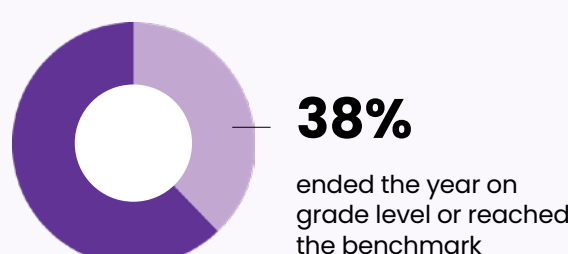

Proven Outcomes: 2024–2025 School Year[1]

Students Working at or Above Grade Level
- **41%** at the start of the year
- **83%** by the end of the year

Average Weekly Usage:
75 minutes per week

Average Skills Completed:
21 skills and corresponding skill checks in one academic year

Students Who Started at Grade Level
- **36%** at the start of the year
- **79%** reached the grade-level benchmark or above by the end of the year

Closing the Gap[1]
- **38%** ended the year on grade level or reached the benchmark
- **54%** gained two or more grade levels in one year

The Research Speaks for Itself [2]

- Positive results of Core5 have been demonstrated in as little as eight weeks
- **Seven studies** on Core5 have a **Tier 1 (Strong)** rating based on ESSA criteria
- There have been **15 peer-reviewed** published studies on Core5 during the last 10 years
- Effect sizes on studies of Core5 ranged from **0.06 to 0.53**

> Core5 is a great tool for developing literacy skills, especially in younger students. What stands out about it is how personalized the learning experience can be. It adapts to each student's progress, offering targeted practice and support based on their individual needs."
