

PowerUp for Virginia's Secondary Students

The Virginia Literacy Act mandates statewide use of high-quality instructional materials aligned with science-based reading research to improve literacy outcomes.

Lexia® supports this initiative through our evidence-based program, Lexia® PowerUp Literacy®, which is the only program to meet VDOE expectations in Word Analysis, Fluency, Vocabulary and Comprehension for grades 6–8 supplemental.

- ☒ Word Analysis
- ☒ Fluency
- ☒ Vocabulary
- ☒ Comprehension

Lexia PowerUp Literacy, grades 6–12, is [research-proven](#) to accelerate literacy gains for students who are at risk of not meeting College- and Career-Ready Standards. Rooted in the science of reading, PowerUp enables students to make multiple years of growth in a single academic year.

PowerUp blends technology-based, student-driven instruction with offline educator-delivered lessons and independent skill-based activities to accelerate the development of fundamental literacy and higher-order thinking skills. The program identifies skill gaps and provides a personalized, systematic instructional environment focused on Word Study, Grammar, and Comprehension. This explicit instruction prepares students to comprehend and engage with complex texts across genres.

The PowerUp model is designed to address the needs of a wide range of students—from those who are several grade levels behind, to nearly proficient readers. PowerUp respects the maturity of adolescent learners with high-interest authentic texts and motivational elements.

As students work independently through PowerUp's online activities, detailed progress data is immediately available on the educator dashboard, myLexia®. This reporting system provides diagnostic data with flexible grouping and coaching support, including offline teacher-led, targeted lessons linked directly from student reports. PowerUp's robust library of offline [instructional materials and resources](#) are automatically differentiated to reduce teacher workload and ensure all students receive personalized and comprehensive instruction.

To explore the PowerUp program, please see the [PowerUp Demo Self-Guided Tour](#).
