Lexia
ALL FOR LITERACY

Core5 Features and Benefits for the Informed Educator

Lexia CORE5 READING

Lexia® Core5® Reading helps educators trained in Lexia® LETRS® Professional Learning apply science of reading principles to accelerate literacy gains for all students, regardless of class size or time constraints.

> "Core5 is a powerful program that helps students who are learning to read as well as those who are struggling."
>
> –Talya Taylor, Principal, Clay Charter Academy, Florida

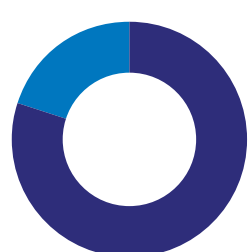

What is Core5?

Core5 is an evidence-based, supplemental literacy program that supports pre-K–5 educators in bridging the gap between science of reading theory and classroom practice.

Core5:

- Aligns to the same science of reading research base highlighted in LETRS
- Provides real-time progress monitoring and instructional resources to inform teacher-led, differentiated instruction
- Is proven to accelerate the development of fundamental literacy skills for students of all abilities

Core5 is grounded in the science of reading

SCIENCE OF READING

**Nearly 8 in 10** educators who participated in LETRS agreed that

> "My students who are using Core5 have a better understanding of literacy concepts because I apply what I've learned from LETRS."*

*Monthly voice of the myLexia® User Survey for sampled educators actively using myLexia and self-identified as using Core5 and have completed 1+ unit of LETRS for Elementary program. Surveyed in March and April 2023. N=150

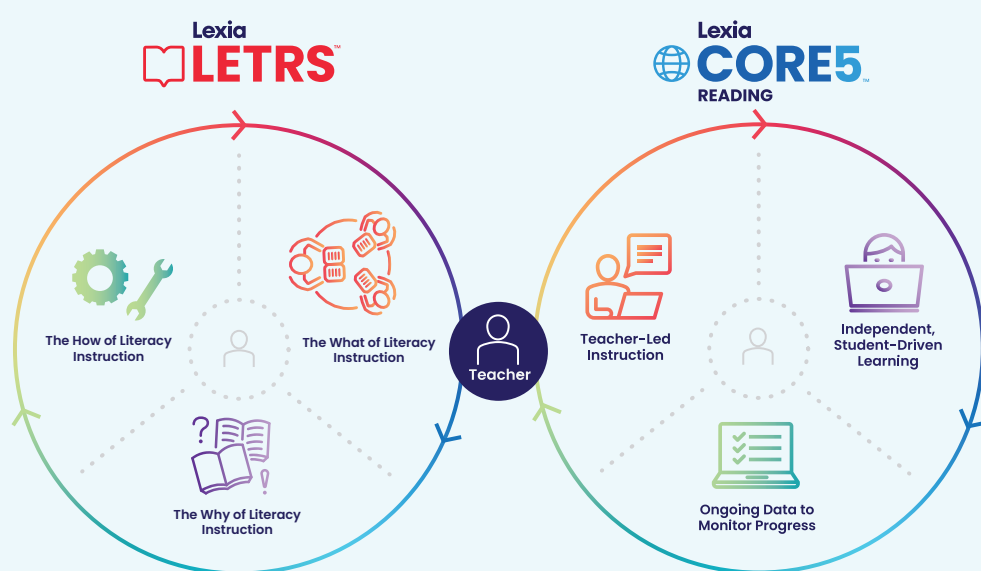

Core5 helps educators deliver differentiated literacy instruction

Core5 provides an **explicit, systematic, personalized approach** to reading instruction. With instruction designed to build both word recognition and language comprehension, Core5 is organized around six areas of reading:

- Phonological awareness
- Phonics
- Structural analysis
- Automaticity/Fluency
- Vocabulary
- Comprehension

Phonological Awareness · Phonics · Structured Analysis · Automaticity/Fluency · Vocabulary · Comprehension

Lexia CORE5 READING

Lexia LETRS · **Lexia CORE5 READING**

The How of Literacy Instruction · The What of Literacy Instruction · The Why of Literacy Instruction · Teacher · Teacher-Led Instruction · Independent, Student-Driven Learning · Ongoing Data to Monitor Progress

The **Adaptive Blended Learning** model is **centered on the teacher**, equipping educators with easy-to-interpret student performance data and instructional resources that seamlessly integrate into classroom routines.

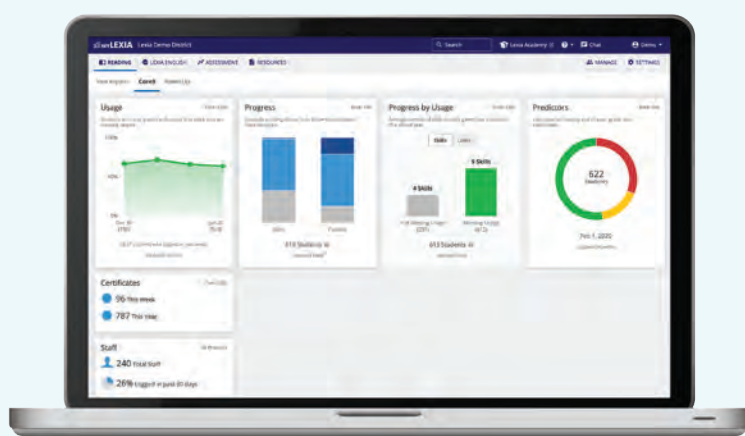

Real-time **norm-referenced, actionable data** help educators predict student outcomes and adapt their instruction.

Scaffolded lesson plans and offline materials **support teacher-led instruction** and empower teachers to address individual student needs.

Students are offered frequent opportunities to practice foundational reading skills through integrated **decodable texts** and supplemental decodable readers.

Powerful myLexia reporting dashboard aids **data-based decisions** by showing academic progress by district, school, grade, class, and individual student.

ESSA STRONG EVIDENCE Tier 1

20 Core 5 is research-based and research-proven, with peer-reviewed and published research studies that meet the standards of evidence required under ESSA.
