

Illuminating Science of Reading Implementation: Professional Learning

STEP ONE: Read the scenario and the problem of practice below independently. As you're reading, think about what you've learned and discussed through the lens of managing science of reading implementation.

Scenario	Initial enthusiasm for science of reading implementation is fading. Ongoing professional development is sporadic, while teachers revert to previous habits over time. New staff miss foundational science of reading training, while coaches are stretched too thin to support lasting change. The organization requires an infrastructure to keep the science of reading alive across multiple years and among all staff.
Problem of Practice	What strategies will help the organization sustain and continuously improve science of reading implementation, ensuring that all teachers remain engaged and equipped to deliver evidence-based literacy instruction?

STEP TWO: What's the core issue?

STEP THREE: Brainstorm system-wide solutions that could impact the core issue in your scenario and improve the organization's implementation.
