Lexia Is Worth It

School Leaders on Investment Impact

School administrators are being asked to do more with less—making literacy investments that expand teacher capacity, support differentiation, and drive measurable student outcomes amid shrinking budgets and rising accountability. Lexia® helps meet these challenges with proven, visible results. Hear from peers about what success with Lexia looks like in practice.

Impact:

Increased teacher capacity—and confidence

“ [Lexia® LETRS®] has dramatically changed everything we do in our district as it relates to early literacy. It has not only had a significant impact on our teachers’ knowledge of reading, but it has changed the way we view and select instructional materials. It is one of the best investments a district could ever make.”

— Dr. Brittney Bills, Curriculum Coordinator, Grand Island Public Schools (GIPS), Nebraska

Impact:

Instructional leadership your staff can rely on

“ As an administrator, I have been very impressed with the level of detail in Lexia’s training and the responsiveness of the implementation team. As a result, my teachers and I know how to successfully leverage the in-depth, user-friendly data for classroom instruction and parent conferences.”

— Carolyn Bona, Principal, Jordan School District, Utah

Impact:

Differentiated instruction for every learner

“ With [Lexia® Core5® Reading], when students encounter a challenging lesson or new material, they’re able to get additional instruction so the learning continues and advances our students’ reading abilities.”

— Anita Wansley, Principal, Northeast Elementary School, Mississippi

Impact:

Real, measurable literacy growth

“ Lexia does so much for us. It reinforces fundamental literacy skills that we are teaching by giving students opportunities to apply these skills in a way that feels like a game to them, and it shows in the data! Only 39% of our students started the year working on grade-level material in Lexia, and at the beginning of April, we are already up to 90% of our students working on grade-level material.”

— Maya Tucci, School Leader, KIPP Tech Valley Primary Charter School, New York

Impact:

Systemwide literacy transformation

“ It’s a huge commitment on behalf of all participants, but the payoffs and the dividends are exponential. It’s given us a common language and a common understanding. It has been transformative for our district within two years, and I’m excited for how that’s going to continue and compound. It is absolutely worth it in my eyes and in the eyes of everyone in my district to see how impactful it has been in such a short amount of time.”

— Maura Donahue, Elementary Literacy Coordinator, Andover Public Schools, Massachusetts

Uncertain times don’t require uncertain decisions. Lexia delivers proven, measurable impact so leaders can invest with confidence and clarity. It’s worth it to see educator confidence grow, proficiency rise for all learners, and to choose Lexia as your partner along the way.
