

Lexia®

## How Lexia Supports Data-Driven Instructional Leadership

When school leaders can see what's working—and what isn't—in real time, they can direct support where it will make the greatest impact. Lexia® literacy solutions deliver the actionable, real-time insights administrators rely on to identify needs, guide instruction, and support strategic school decisions.

### Identifying Student Skill Gaps Early

Data from Lexia solutions gives leaders real-time visibility into areas for improvement so that skill gaps don't have a chance to widen.

“

Lexia® Core5® Reading helps us identify the exact skills students are working on or struggling with. It has been a game changer for us.”

— Dr. Felecia Evans, Principal,  
Lander Elementary School, Ohio

“

What's so great about Lexia® PowerUp [Literacy®] is the teachers can see where the kids are working. The ability for a teacher to click on a name, and drill into the data, and then address where a student needs help with specific resources, no other program is like it.”

— Nancy Sindle, Reading Specialist,  
Shirley C. Heim Middle School, Virginia

### Guiding PLC Focus Areas

Lexia data support professional learning communities' collaboration with concrete evidence and clear next steps.

“

Our professional learning communities meet weekly to go over student data and have important discussions about our activities and interventions. The data from myLexia® helps us get the kids what they need more quickly.”

— Jeff Schiller, Assistant Principal, Center  
Elementary School, Mayfield City Schools, Ohio

## Allocating Intervention Support Strategically

With Lexia data, school leaders make more confident decisions about distributing resources.

“

PowerUp was the perfect fit or what we needed for our reading intervention goals at Tier 2 for students ... I met regularly with school teams, including the principal, the literacy coach, and the teachers of the interventions, so that we could review student progress.”

— Renee Hesson, Supervisor of Instruction for Secondary English—Fine Arts, Caroline County Public Schools, Maryland

“

I use the Lexia reports daily as part of our MTSS process. I’m constantly monitoring progress and usage data and sharing reports with school principals, assistant principals, and teachers. MyLexia makes it easy to pull the reports and share with staff at the level of detail they need.”

— Jennifer Williams, ESOL Program Coordinator and Assistant Principal at Marietta High School, Marietta City Schools, Georgia

## Providing Instructional Leadership

Lexia solutions provide building wide visibility into student learning, giving leaders the evidence they need to shape short- and long-term instructional planning.

“

With Lexia® English [Language Development™], all of the principals are able to tell you exactly what they expect to see when they walk into the classroom. They’re having conversations with their ELL teachers differently ... they understand what the expectations are, and what should be happening.”

— Dr. Jiel Joseph, Senior Regional Manager of Special Education and English Language Learners, Uncommon Schools NYC

“

As teachers and administrators, we can’t only pay attention to our intuition, but we also need to use data. Core5 provided meaningful, actionable data for those discussions and helped to make those challenging decisions.”

— Anita Wansley, Principal, Northeast Elementary School, Meridian, Mississippi

## Data That Support Confident Leadership

When leaders anchor decisions in student needs, instructional impact follows. Lexia provides the real-time data that clarifies priorities and delivers results.
