

Lexia LETRS for Early Childhood Educators

Language Essentials for Teachers of Reading and Spelling

Why Lexia?

With a 35-year focus on delivering literacy solutions, we have developed a breadth and depth of expertise unlike any in our field. Early childhood educators have limited access to research supporting best practices of developmentally appropriate, evidence-based routines and instruction, which impacts the delivery of playful, purposeful instruction essential for the development of early literacy skills. Lexia® offers comprehensive professional learning solutions that build teacher confidence, deepening educator knowledge and expertise in the science of reading and the practical classroom implementation of Lexia products. Lexia is leading the charge on innovative, effective, and research-proven approaches to one of literacy's biggest issues: more equitable learning for every student.

Key elements that make Lexia unique include:

- » Research and results
- » Adaptive Blended Learning (ABL) model
- » Patented Assessment Without Testing® (AWT) technology
- » Focus on academic language
- » Personalized and scalable implementation partnerships

Why Lexia LETRS for Early Childhood Educators?

The early childhood years are critical to building the foundations young children need for success in school and life. LETRS® for Early Childhood Educators empowers educators of young children with deeper knowledge and clarity of effective strategies to prepare all students for success in kindergarten and beyond.

Dr. Louisa Moats and Dr. Lucy Hart Paulson designed this course of study for early childhood educators because research shows the foundation of literacy begins at a young age. Early childhood educators need the same level of professional learning as K–3 educators to effectively teach the foundation of literacy.

Studies show that pre-K and kindergarten prepare children to thrive in school and accelerate their learning. Even at this early stage of learning, independent experts agree that “a well-implemented, evidence-based curriculum” and an emphasis on the quality and continuous training of early childhood educators leads to success in the classroom.

Language Essentials for Teachers of Reading and Spelling

Professional Learning Solutions

Lexia LETRS® professional learning for elementary educators is an investment in teachers' literacy knowledge and professional practice. Teachers gain essential knowledge to master the fundamentals of literacy instruction required to transform student learning.

LETRS meets International Dyslexia Association (IDA) standards for teachers of reading.

Lexia LETRS for Early Childhood Educators professional learning provides deep knowledge of literacy instruction for the youngest learners. The more children know about language and literacy before they begin kindergarten and first grade, the better equipped they are to succeed in literacy learning and beyond.

Lexia LETRS® for Administrators is a professional development course designed specifically for school leadership, coaches, principals, and district administrators. The course defines the systems and infrastructures required to successfully implement a literacy initiative aligned to scientifically based research. Built from research in implementation science and sustainability, school improvement, and shared leadership, the course provides numerous tools for guiding an implementation through various stages.

What is LETRS for Early Childhood Educators?

LETRS for Early Childhood Educators professional learning provides deep knowledge of literacy instruction for the youngest learners. The more children know about language and literacy before they begin kindergarten and first grade, the better equipped they are to succeed in literacy learning and beyond.

This course will:

- » Define early literacy and language, the processes involved, and the developmental sequences by which these skills develop
- » Describe strategies and learning activities that are engaging, effective, and developmentally appropriate
- » Discuss how assessment procedures and data can be used to plan and implement instruction for the youngest learners

The four units of LETRS for Early Childhood Educators and their content

Unit 1: Early Literacy Foundations	Unit 2: Oral Language Connections
<ul style="list-style-type: none"> • Historical events and research • Policies and standards • Developmentally Appropriate Practice (DAP) • Assessment • Predictive indicators 	<ul style="list-style-type: none"> • Oral language structures of phonology, semantics, morphology, syntax, and prosody • Stages of oral language development and assessment • Strategies to facilitate oral language development
