## Adaptive Personalization for Washington English Learners

Lexia® English Language Development™ empowers educators to monitor adaptive student progress WIDA English Language Development Standards (K–sixth grade) across the six proficiency levels: Entering, Emerging, Developing, Expanding, Bridging, and Reaching. 100% WIDA alignment with real-time data technology unlike any other resource available.

### Know at a glance:

- How much progress has my student made?
- What are my student performance trends?
- How did my student do in the Presentation of Knowledge Units?
- Where does my student need support?

View content area and skills student is working on with real-time accuracy and data for Speaking, Listening, and Grammar.

The reporting images above are for illustration purposes only. Final interfaces will vary due to program enhancements.

Differentiate for learners by viewing the skill/content focus for each Encounter with usage and detailed performance information.

The adaptive nature of Lexia English allows educators to see the placement and progress that learners are making through the WIDA proficiency levels while the program helps to accelerate English language development for students at all WIDA proficiency bands.

Click for a full teacher-directed lesson plan to reteach the skill when students need additional instruction and use the Practice Group Report to identify other students who may need the same lesson.
