

# Illuminating Science of Reading Implementation: Professional Learning

<b>STEP ONE:</b> Read the scenario and the problem of practice below independently. As you're reading, think about what you've learned and discussed through the lens of managing science of reading implementation.	
<b>Scenario</b>	Initial enthusiasm for science of reading implementation is fading. Ongoing professional development is sporadic, and teachers revert to previous habits over time. New staff miss foundational science of reading training, and district coaches are stretched too thin to support lasting change. The district requires an infrastructure to keep the science of reading alive across multiple years and among all staff.
<b>Problem of Practice</b>	What strategies will help the district sustain and continuously improve science of reading implementation, ensuring that all teachers remain engaged and equipped to deliver evidence-based literacy instruction?

**STEP TWO:** What's the core issue?

**STEP THREE:** Brainstorm systemwide solutions that could impact the core issue in your scenario and improve the district's implementation.
