

Participant Activity Guide

Collaborative Conversation:

Problem Solving for Science of Reading Implementation

PURPOSE

This session will help you:

- Reflect on your district's current state of science of reading implementation
- Identify "drags" and "drivers"
- Prioritize the top-three drivers to accelerate progress

QUESTION	MY NOTES
1. How would you describe your district's current stage in science of reading implementation?	
2. What are your district's top literacy priorities/goals this year?	
3. What professional learning (workshops, PLCs, coaching) have staff had so far?	
4. What has gone well in your science of reading implementation so far?	
5. What is your student data telling you?	
6. How are you using data to inform science of reading implementation?	

The Drags:

The Drivers: Listen, ask questions, and capture useful ideas.

DRIVERS/IDEAS FROM OTHER DISTRICTS	NOTES FOR MY DISTRICT

Final Reflections:
