## WHAT UTAH EDUCATORS ARE SAYING<sup>4</sup>

- "I like that it follows our core, and pre-and re-teaches concepts. Also, it helps to guide my instruction."*
- "It's easy and engaging for the kids to use, it helps them learn and improve skills, and it's easy for the teacher to track progress and see where kids need help."*

Third-party evaluations of Utah's Early Intervention Reading Program<sup>5</sup> have found that:

- ✓ Core5 students consistently met their usage targets
- ✓ Core5 was the only program to show a consistent relationship between meeting usage targets and higher literacy scores across grades
- ✓ Use of Core5 contributed to significant reading gains relative to matched controls in both full- and half-year implementations

**VERIFIED TO DRIVE OUTCOMES**

1. Results for PreK–5th grade students in Utah who used Core5 between 7/26/2021 and 5/29/2022. Data compiled and analyzed by the Lexia Research team. 2. Usage and progress results for students who used Core5 with fidelity during the 2021-22 school year (used the program for at least 20 weeks, met their weekly usage targets at least 50% of weeks, and started use before the end of 2021). 3. Results from educators in Utah who logged into myLexia between 7/26/2021 and 5/29/2022 and had Core5 students rostered to their myLexia classes. 4. From a survey of Lexia educators and administrators deployed monthly across SY 2021-22 by Lexia Research (N=339 Utah educators using Core5). 5. Lexia Research Brief: Utah's Early Intervention Reading Software Reports Impact of Lexia Core5 Reading Over 5 Years. Based on reports by the Evaluation and Training Institute.
