Literacy
Champion.**

Register for the Oklahoma
LETRS Science of Reading
Academies today!

LETRS® professional learning for elementary educators is an investment in teachers' literacy knowledge and professional practice. Teachers gain essential knowledge to master the fundamentals of literacy instruction required to transform student learning.

LETRS works because it:

- Increases the quality of literacy instruction
- Empowers teachers to understand the what, why, and how of science-based reading instruction
- Fills gaps in teacher-preparation education by covering all layers of language organization (phonology, orthography, morphology, syntax, semantics) and their relevance for teaching reading, spelling, writing, and oral language
- Is independent of any curriculum or intervention program

What's the next step?
