

Student Literacy Success With the Right Instructional Partner

Lexia shares your mission to teach all students to read

95% of Children Can Be Taught to Read Using Science of Reading-Based Programs

Lexia® has a deep commitment to science of reading-based professional learning and curriculum solutions currently serving:

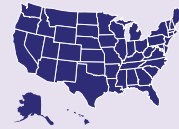

6.5 million
K-12 students

600,000
educators

22,000 schools
nationwide

50 states

Our Solutions Work

80% of students who used **Lexia® Core5® Reading** during the pandemic did not have learning loss

57% of students using **Lexia® PowerUp Literacy®** covered 3+ grade levels in a single year

2 in 5 students who used **Lexia® English Language Development®** as recommended moved up a proficiency band

93% of **Lexia LETRS®** trained educators indicate they are able to identify and target the instructional literacy needs of students based on the science of reading

Lexia Aspire™ Professional Learning is the **first on-demand** literacy professional learning for teachers of grades 4-8

I can say without hesitation that the people at Lexia are by far the most responsive and supportive of any company that I've worked with, period."

— Alli Chryst, Assistant Principal, Shuksan Middle School, Bellingham, Washington

With Lexia as your literacy partner, you can help your teachers thrive with proven science of reading solutions.
