Lexia Fits the Bill

Meeting the requirements of the Colorado READ Act

Colorado educators want the best for their students, and that means providing them with rich literacy instruction that is scientifically proven and evidence-based. Through the Colorado READ Act, Colorado educators have used the science of reading to build a plan of action that will ensure access to effective and equitable literacy curriculum and instruction for ALL students. At Lexia®, we are here to answer this call to action and partner with Colorado school districts to increase student reading achievement. We want to level the literacy playing field for all students in every community. The following table outlines how Lexia's professional learning suite, Lexia LETRS® (Language Essentials for Teachers of Reading and Spelling), and our pre-K-5th grade adaptive blended learning solution, Lexia® Core5® Reading, support the objectives of the Colorado READ Act.

Colorado's plan of action	How Lexia answers the call	
Use evidence-based science of reading curricula models	Lexia LETRS	Empowers literacy educators' instructional practices with science of reading- and evidence-based essentials
Use evidence-based science of reading instructional programs	Lexia CORE5 READING	Uses a science of reading-based framework to support foundational through advanced literacy skills development for ALL learners
Provide professional development and coaching	Lexia LETRS	Composed of an evidence-based, dynamic blended professional learning suite that includes print, online, and in-person training and materials for educators and administrators
Use evidence-based curriculum and intervention materials tailored to meet the individual needs of each student	Exia CORE5	Provides real-time, standards-aligned progress monitoring to help teachers promptly identify gaps and provide just-in-time support based on personalized student needs
Provide training in the areas of phonemic awareness, phonics, vocabulary development, fluency, comprehension, and culturally and linguistically responsive pedagogy	Lexia LETRS	Comprehensive professional learning designed to provide early childhood and elementary educators and administrators with deep knowledge to be literacy and language experts in the science of reading
Use a data-based decision-making process within the MTSS framework to determine the evidence-based reading instruction needed	Lexia CORE5	Supports an MTSS model through real-time data-driven reporting, personalized prescriptions of intensity, ongoing progress monitoring, and evidence-based, data-driven instruction
