

Lexia® LETRS® Professional Learning Is Empowering Educators Across California

Teaching all students to read proficiently is the cornerstone of academic success. Discover how LETRS empowered California educators and administrators at these school districts to improve literacy outcomes for students of all abilities by becoming experts in understanding and applying the science of reading through evidence-based instruction.

SUCCESS STORY | Hemet Unified School District

Professional learning with LETRS equipped educators at Hemet Unified School District to **accelerate student literacy outcomes** with research-proven instructional strategies.

Now we're empowered with the knowledge and skills and the tools to really be able to support our students—and, as leaders, to support our teachers. It's changing lives.

— **Kristen Anderson**

Director of Literacy and Intervention, Hemet Unified School District, California

SUCCESS STORY | Anaheim Elementary School District

Professional learning with LETRS empowered administrators and teachers at Anaheim Elementary School District to **improve literacy outcomes** with research-based instructional practices.

LETRS has a lot to offer with strategies that I can use, and it's research-based. More than 90% of strategies I've learned from LETRS are transferable very easily into Spanish.

— **Cynthia Pruitt**

Second-Grade Teacher, Anaheim Elementary School District, California

SUCCESS STORY | Peabody Charter School

Hear how professional learning with LETRS empowered educators at Peabody Charter School to **ensure all students become stronger readers**, including English Language Learners and striving readers.

We're starting to see amazing results where students are exiting from intervention because they've gotten the skills they need.

— **Demian Barnett**

Superintendent and Principal, Peabody Charter School, California
