

A Checklist for Creating a Culturally Responsive Classroom

Use this checklist to promote a culturally responsive learning environment to ensure all students receive the equitable instruction they deserve.

Do we celebrate the assets students bring to the classroom rather than highlighting their deficits?

Do we draw upon students' cultures to shape curriculum and instruction?

Do we communicate in linguistically and culturally responsive ways?

Do we recognize and redress biases in the classroom?

Do we make content and instruction relatable to real-world issues that impact students' lives?

Do we collaborate with families and the community to strengthen the school-to-home connection?

Do we promote instructional materials that reflect images and perspectives from diverse groups?

Do we model high expectations for all students?

All students deserve the same opportunity to become successful readers and confident learners. Let us show you how Lexia's adaptive, personalized literacy and language programs can help.
