

CONVERTING RESEARCH TO PRACTICE¹

During the 2021-2022 school year, Lexia® delivered live online LETRS professional learning for:

148,405
EDUCATORS

15,851
SESSIONS

47
U.S. STATES

ENHANCING TEACHER EFFECTIVENESS²

After participating in a live online LETRS professional learning session this year:

92% Agreed the session content **enhanced their ability to use research-based practices** in their role.

93% Agreed they can **apply the skills and concepts** they learned from the session in their school.

90% Agreed the live session gave them a **deeper understanding** than print/online materials alone.

WHAT EDUCATORS ARE SAYING²

“ I'm beginning my 25th year of teaching and should have had this training in college. I can't wait to jump back into my classroom to use this invaluable knowledge I have gained.

“ As a school administrator, today's training was most useful to me. I was given the tools needed to create structures that support a strong literacy program.

“ The science of how kids actually learn to read has been missing from teacher preparation courses and PD. Now, I feel like I have a better understanding of how to help all of my students on their way to becoming fluent, proficient readers and am better equipped to pinpoint where students struggle.

LETRS EDUCATOR OUTCOMES

LETRS Professional Learning helps educators to:

- ✓ Understand how language, reading, and writing are related to one another.
- ✓ Make instructional decisions and program choices with reference to scientific research evidence, strategic use of assessments, and observations of students.
- ✓ Deliver comprehensive, integrated language and literacy instruction defined by standards and by research for a given grade, age, or ability level.

1. Results from LETRS professional learning session and attendance data for 10/6/21-7/26/22. Data compiled and analyzed by the Lexia Research team.

2. Results from a post-session feedback survey of educators collected 10/11/21-7/26/22 by Lexia Research.
