

Professional Development in the Science of Reading for Ohio Administrators

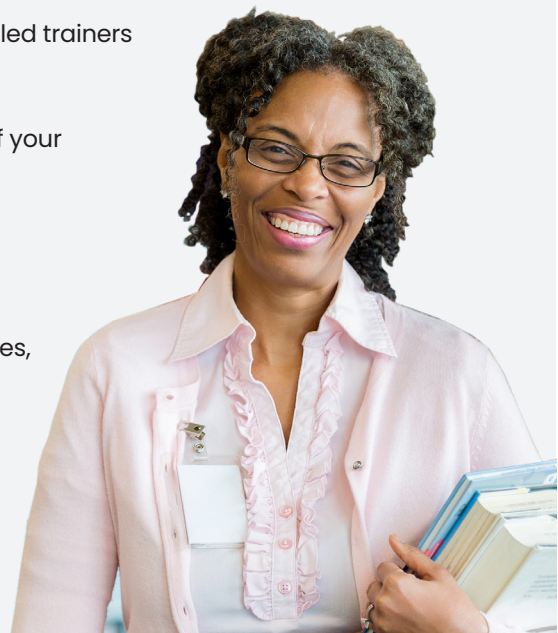

What is Lexia LETRS® for Administrators?

Built on the latest research, Lexia LETRS for Administrators is an integral part of the Lexia® LETRS® Suite. Designed to help state, district, and building administrators as well as instructional leaders deploy effective Structured Literacy initiatives, LETRS for Administrators is the only fully LETRS-aligned professional learning course available. With systems thinking and implementation science, this comprehensive program ensures that the right systems and infrastructures are in place to successfully implement a sustainable literacy program for your schools.

How will you benefit by using Lexia LETRS for Administrators?

- ✓ Access training approved by the Ohio Department of Education & Workforce.
- ✓ Learn from nationally recognized, LETRS-credentialed trainers and facilitators.
- ✓ Focus on the implementation and sustainability of your literacy initiatives.
- ✓ Directly apply course templates to your required comprehensive three-year sustainability plan.
- ✓ Utilize tested resources for job-embedded practices, including case study videos with school leaders and other practical resources.
- ✓ Select in-person or live online professional learning sessions—you choose!

Why Lexia LETRS for Administrators?

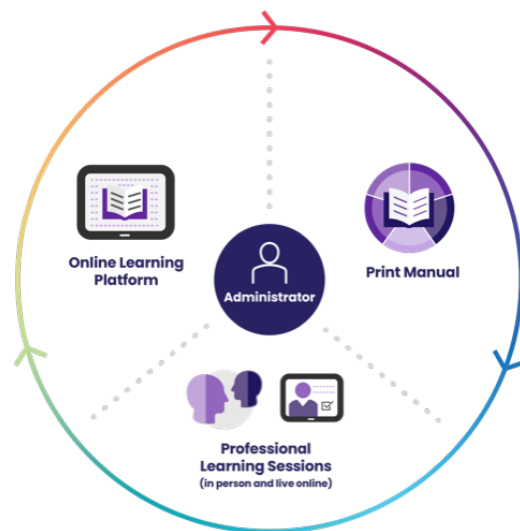

Instructional leaders of state, district, and school communities lead the charge for effective instructional delivery and positive change impacting educator and student success. LETRS for Administrators equips instructional leaders with the knowledge, science, and tools needed to be the change agents necessary for a systemic shift that improves literacy instruction and student learning.

The 5 units of the program

- Unit 1:** Using Systems and Implementation Science to Improve Literacy Outcomes
- Unit 2:** Universal Instruction at the Word-Recognition Level
- Unit 3:** Universal Instruction at the Language Comprehension Level
- Unit 4:** Leadership, Assessment, Data-Based Decision-Making and Literacy Intervention
- Unit 5:** Professional Development, Community and Family Involvement, Problem-Solving, and Sustainability Planning

How will administrators learn?

The course is designed to be implemented over the course of two years via Lexia's Adapted Blended Learning model. It consists of an asynchronous component (print manual and online learning platform) and a synchronous component (live in-person or live online professional learning sessions).

About Lexia

For 40 years, Lexia has been at the forefront of the science of reading revolution, offering trailblazing professional learning, curriculum, and embedded assessment solutions that provide districts with actionable ways to accelerate literacy gains.
