## Lexia's Partnerships are Proven!

Lexia research has shown that students using Lexia® Core5® Reading in schools with Success Partnerships that use the program with fidelity are 5 times more likely to reach their end-of-year, grade-level benchmarks in the program as compared to students using the program a minimal amount (20 minutes per week).

In schools whose student population could be classified as "high-risk" (more than half of the students began the year working on skills more than two years below grade level), 41% of students achieved implementation fidelity when their school had an Implementation Success Partnership, compared to only 27% of students in schools that did not have one. With Lexia Core5 Reading, implementation fidelity leads to significant student progress.
