

The Impact of Lexia® Core5® Reading in a Summer Program for English Learners

English Learners showed **gains in Lexile® scores** on the Reading Inventory (a common reading assessment) following Core5 use as part of a summer program.

Outcomes of this study¹ demonstrated the benefits of using Core5 as part of a summer program for English Learners. Participation can help **prevent summer slide**—a decline in academic skills that may occur during the summer. Even greater gains could be expected if Core5 use were stronger during the summer.

A blue rectangular box with white and light blue text. At the top, it says 'GAINS IN LEXILE SCORES'. Below that, '4x' is written in a large font with a circular arrow icon around the 'x'. Underneath, it says 'GREATER' in a large font, and 'THAN CONTROL STUDENTS' in a smaller font at the bottom.
