Congratulations for being part of the Alabama Department of Education LETRS Implementation. The guided model combines the LETRS online learning platform, the LETRS print manual, and live-online unit professional learning sessions for a comprehensive, multimodal professional learning experience. Becoming a literacy expert takes years of immersive experiences including reading and study, practice and application, trial and error, and reflection. We encourage participants to follow the suggested pacing guide as they complete their LETRS coursework along with the [LETRS 2023/2024 Session Calendar](#). Linked you will find [LETRS for Early Childhood Outcomes and Estimated Time to Complete](#) resource to better understand the learning ahead. Please use the following chart to capture important milestones on your journey.
